

SHAPING the FUTURE of VIRTUAL MENTAL HEALTH CARE for 2021 and BEYOND

PANEL DISCUSSION #5 OF 5

A CALL TO ACTION:

Developing a virtual mental health care workforce and education agenda for 2021 and beyond

TUESDAY, MARCH 23, 2021
11:30 A.M.-1:00 P.M.

This session focuses on delivering the next phase of digital transformation in virtual mental health care and services. It examines the efforts required to develop and support the health care workforce in our current digital care context.

The panel will discuss:

- how digital transformation in mental health changes the roles and functions of the workforce
- emerging training needs and how organizations/agencies can prepare for the challenges and opportunities of virtual care
- what it means to prepare the future workforce for virtual care
- lessons from health, social care and community-based organizations on developing virtual care and other digital workforce programs
- key principles that should govern how we support and educate the current and future mental health care workforce.

Audience:

Health care/service leaders and decision-makers, including: administrators | advanced practice clinical practice leaders and program managers | ethics and privacy advocates | digital program managers and digital champions | educators | leaders in academic institutions | policy-makers | project managers.

MEET THE PANEL

Moderator:

Dr. Sanjeev Sockalingam, Vice-President Education, Centre for Addiction and Mental Health (CAMH); Vice-Chair, Education and Professor of Psychiatry, University of Toronto
